

# Wasaga Distribution launches Affordability Fund Program

Help is here! Lower home energy use and electricity bills with FREE energy saving upgrades.

August 14, 2018, Wasaga Beach, Ontario - Wasaga Distribution is pleased to announce that its customers may qualify for FREE energy-saving upgrades, including ENERGY STAR® certified LEDs, ENERGY STAR® certified appliances, insulation and weather stripping through the Affordability Fund Program.

“We’re excited to be able to offer this program to our customers who struggle with their electricity costs. We encourage anyone who is having difficulty to be in contact so we can determine which level of support best meets their needs,” said Brandon Weiss.

## *How the Program Works*

1. First, fill out the contact form online at [www.affordabilityfund.org](http://www.affordabilityfund.org) or call 1-855-494-FUND if you find your electricity bill is a burden.
2. Next, you'll get a call from the Affordability Fund. They'll ask you some basic information, such as your household income and average electricity bill.
3. Receive your free energy-saving products for Level 1 offers. Set up a free in-home energy audit and installation of energy-saving products for Levels 2 and 3, if you qualify.
