Wasaga Distribution Inc. has applied to the Ontario Energy Board to raise its electricity distribution rates effective May 1, 2023. If the application is approved as filed, a typical residential customer and a typical general service customer of Wasaga Distribution Inc. would see the following increase:

Rate Class	Monthly Bill Impact
Residential 750 kWh	\$0.82 per month

Other customers, including businesses, may also be affected.

The requested rate increase is set using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency.

Wasaga Distribution Inc. has also applied to adjust its Low Voltage Service Rates.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Wasaga Distribution's application. We will determine whether the company has used the applicable models and formulas required by the OEB and whether to approve Wasaga Distribution's request to adjust its Low Voltage Service Rates. We will also hear questions and arguments from individuals that have registered to participate (called intervenors) in the OEB's hearing. At the end of this hearing, the OEB will decide what, if any, rate increase will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
